

Director & Officer Insurance Information

2008 Season

To apply, go here - www.fastcov.com/usavolleyball

- When completing the application online, a Club should be entered as a Team. When asked if the coverage has ever been non-renewed, the answer should be "no". The program was cancelled, their policy was not non-renewed (for those that had the coverage last season through this program).
- In the event that a club or region has paid employees, the club or region would need to print the application and then send it directly to my attention. Please also have the organization list the number of paid employees and their annual salary on the application. Once the application has been received and reviewed, American Specialty will underwrite the exposure on an individual basis and provide a proposal. We would then present the proposal, wait for binding instructions, and proceed with invoicing the client at that time.
- As for the pricing of the new program, as long as a club has gross receipts under \$1,000,000 the policy premium will be \$625 (which assumes no pending or prior loss activity) for a \$1,000,000 limit. If a club or region elects a \$2,000,000 limit, the premium will be \$925 (again assuming no pending or prior loss activity). If a club or region has to submit a paper copy of the application to be underwritten individually, the premium will be based on the individual organizations exposure.

If you have any additional questions regarding the new program, please contact Jennifer Waller with ESIX directly.
