Score:

POOL PLAY RESULTS: For points system, we need the Set results for each match played during pool play (DO NOT include tie-breaker sets in the pool record) and match results from the playoffs (above). NOTE: If you run several divisions or multiple pools, copy the second page of this form as needed to show all results (may copy front/back to conserve paper).

LIST TEAMS IN POOL 1 (use original pool order – use Number in results at right)	POOL RECORD Sets only	FINISH IN POOL	MATCH #	TEAM A	SETS WON (A)	TEAM B	SETS WON (B)	TEAM A (ct 2)	SETS WON (A)	TEAM B (ct 2)	SETS WON (B)
1.			1								
2.			2								
3.			3								
4.			4								
5.			5								
6.			6								
7.			7								
			8								
			9								
			10								

Pool 1 – List teams in original order. Put **Set Record** for teams during pool play only (do not include any tie-breaker sets at end of pool). Then put how they placed in pool (1st, 2nd, 3rd, etc. – ties are ok). Some lines may be blank depending on number of teams entered.

Match Results: List Team Number from left and number of sets won during the match between the two teams (ex: Match between team 4&6; Team A = Team 4 had 2 set wins, Team B=Team 6 had 1 set win. Boxes would look like: 4 – 2 – 6 – 1)

These columns are for Second court matches in a 6- and 7-team pool format. Leave blank for 4- and 5- team pools.

POOL PLAY RESULTS: For points system, we need the Set results for each match played during pool play (DO NOT include tie-breaker sets in the pool record) and match results from the playoffs (page 1). NOTE: If you run several divisions or multiple pools, copy the second page of this form as needed to show all results (may copy front/back to conserve paper).

Pool 2 – List teams in original order. Put Set Record for teams during pool play only (do not include any tie-breaker sets at end of pool). Then put how they placed in pool (1st, 2nd, 3rd, etc. – ties are ok). Some lines may be blank depending on number of teams entered.
