Site Assignment Example:

- 1 17 West "Realm". All teams ranked top to bottom (35 teams in age group/geographic area).
- 2 At entry deadline (2 weeks before), the results from previous tournament have been entered into Points System and updated rankings generated (at left).
- 3 Teams that have submitted an entry for the next tournament are highlighted in color (3 colors)
- 4 We have 3 sites that have requested to host
- 5 Since assigning in 6-team tournament formats only, we will send 6 teams to tSITE1 to fill the courts. The Top 6 teams (RED) in rankings that entered this tournament are assigned to Site 1. We will call this "Site 1" in the Tournament System for regular season tournaments. The next site will be Site 2, and so on. Regionals sites will still be labeled "DIVISON". Depending on the number of teams in a realm and the number that enter the tournament, there could be 7, 8, 9, or more "Sites"
- 6 For site two, we send the next 6 teams that entered this tournament weekend (BLUE).
- 7 For site three, we sent the remaining teams that entered (ORANGE). Since had 4 teams left over, they will play a 4-team tournament on two courts. If two teams after Team 19 that didn't enter decide to enter late, there would be room at that site and they could be accepted (with late fee)
- 8 On the Regional Championship Event weekends (March 20-21 and March 27-28, 2021), we will take the top 3 teams in the rankings that enter by the entry deadline and place them in the Regional Championships automatically. This will occur for all age groups and both realms (East and West). Six teams total will then play for that age group's Regional Championships. All other teams will be placed in their respective East or West Championships and assigned as outlined above.
