Site Assignment Example:

- 1 17 West "Realm". All teams ranked top to bottom (35 teams in age group/geographic area).
- 2 At entry deadline (2 weeks before), the results from previous tournament have been entered into Tournament System and updated rankings generated (at left).
- 3 Teams that have submitted an entry for the next tournament are highlighted in color (3 colors)
- 4 We have 3 sites that have requested to host - one 3-court site and two 2-court sites.
- 5 In this example, we assigned the 3-court site first. Since assigning in 4-team pool increments, we will send 12 teams to this site to fill the courts. The Top 12 teams (RED) in rankings that entered this tournament are assigned to Site 1. We will call this "Site 1" in the Tournament System since it contains the teams at the TOP of the rankings. The next site will be Site 2, and so on. Depending on the number of teams in a realm and the number that enter the tournament, there could be 7, 8, 9, or more "Sites"
- 6 For Site two, we send the next 8 teams that entered this tournament weekend (BLUE).
- 7 For Site three, we sent the remaining teams that entered (ORANGE). Since only 7 teams total entered, they will play a 4-team pool and a 3-team pool for their formats. If teams 28, 30, 33, 34, or 35 decide to enter late, there would be room at that site and they could be accepted (with late fee)
- 8 On the Regional Championship Event weekends ONLY:
 We will take the top 4 teams in the rankings that enter by the entry deadline and place them in the Regional Championships automatically. This will occur for all age groups and both realms (East and West). Eight teams total will then play for that age group's Regional Championships. We will label the site of the top 8 teams "DIVISION 1" All other teams will be placed in their respective East or West Championships and assigned as outlined above. The East/West Championship sites will still be labeled Site 1, Site 2, etc.
